Reasons for Allowance

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: as applicants properly point out on page 5 of the remarks, that Esrig, et al. does not disclose acquiring and collecting illumination and photoemission images for each one of a plurality of die on a wafer. Instead, Esrig et al. discloses collecting images of a single die. Esrig et al. also does not disclose assembling the collected images into a mosaic, wherein spatial relationships between the plurality of die are maintained when forming the mosaic. Instead, Esrig et al. discloses subtracting a background image of a single die from an emitted image, and superimposing the difference on a reflected image in order to provide a "global" composed image relating to that one die. Hence, and in view of applicants' arguments and in combination with all of the other elements of the claims the 35 U.S.C. 103 rejections thereof to independent claims 1 and 6 is withdrawn, making independent claims 1 and 6 allowable. Since dependent claims 2-5 and 7-10 depend on claims 1 and 6 respectively, they are allowable also.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
